

INTERNAL JOB POSTING

Posted: 6/3/2019
Job Title: Drafter/Designer
Reports to: Chief Engineer
Department: Engineering
Status: Regular Full Time; Non-Exempt
Hours: 1st Shift Flex

Summary:

This position is responsible for working as a cross functional team member to support any drawing needs for new and existing products, along with fixture design and development to support various products from inception through manufacturing test and delivery.

Key Job Responsibilities:

- Provide detail design for various equipment and fixtures to support all products and company needs
- Generate all levels of drawings, primarily part, assembly and customer interface drawings and bills of materials, but also technical documentation necessary to satisfy current and potential project requirements under the direction of Engineering
- Support Sales, Marketing and Manufacturing under the direction of Engineering
- Work as a team member to check detail drawings, review designs and support design development to satisfy customer requirements and the needs of the engineering department
- Demonstrate a passion for continuous improvement with a strong desire to eliminate waste and non-value-added processes using Lean principles.

Skills & Experience:

- 1-3 years detail drawing experience preferred
- Proficient in Solid Works with part modeling, assembly creation and generating drawings
- Excellent organizational skills and attention to detail
- Strong human relations skills to work effectively with a variety of people as well as proven problem solving and decision-making skills

Educational Requirements:

2 year Technical degree in drawing and design / Preferred BS Mechanical Engineering Technician
